Excerpts of A Message from County Executive Marc Elrich May 13, 2021

Dear Friends,

We continue to head in the right direction in terms of the number of cases, positivity rates and vaccination rates. We are the second lowest in terms of case rates in Maryland (and the lowest among the big counties) and the fourth lowest case rate in the nation amongst jurisdictions over 800,000.

And almost 50 percent of our residents have received both doses of Pfizer/Moderna or a single dose of Johnson & Johnson (J&J) vaccine, according to CDC data. Two weeks after we hit that 50 percent mark, we will follow the state of Maryland's guidelines. (A person is considered "fully vaccinated" two weeks after the second dose of Pfizer/Moderna or the single dose of J&J.)

I know that the Governor has announced an almost immediate end to virtually all restrictions other than indoor masking; but, here in Montgomery County, we have based [reopening](#) on [vaccination rates](#), which are key to controlling the spread of the virus. We are very close to having half of our population fully vaccinated.

In the meantime, we are continuing to vaccinate as many people as possible. It is great news that 12- to 15-year-olds can now receive the Pfizer vaccine, and we have begun vaccinating them. In fact, earlier this week, as we waited for the final approval, we administered more Moderna in anticipation of a rush on Pfizer at the end of the week.

We remain concerned about people who are not getting vaccinated. We are reviewing the reasons that people may not be vaccinated.

We are increasing our outreach efforts. Last week, we sent 147,000 text messages to targeted areas of the County that have been disproportionately impacted by COVID-19, and next week we will again host the FEMA mobile vaccination unit (MVU) to vaccinate about 1,000 people. The MVU trailer will return again in early June, and we will continue to target areas in the County with populations that need easier access to the vaccine. We will continue to communicate in a variety of ways that the vaccine is available, free, safe and important to get.

This pandemic has created and exacerbated the rent payment problems for many tenants. Fortunately, [Governor Hogan's Executive Order suspending evictions for tenants who have COVID-19-related income loss](#) is still in effect and helps protect renters. It remains in effect until he lifts the state of emergency.

I also have some non-COVID-related issues I wanted to share with you. We have just announced a steering committee to develop the [plans to provide better social and mental health support](#) for our students in our schools. This committee will work in the short-term to move new solutions forward as quickly as possible and within the next couple of months.

I'm thrilled to report a public-private partnership that is an important step to help address climate change. We are creating an integrated microgrid and electric bus charging infrastructure at the Brookville Bus Depot in Silver Spring. This project will enable at least 44 Ride On buses to transition from diesel to electric, reducing lifetime emissions by over 155,000 tons. This is a major initiative in our effort to get to zero emissions by 2035.

Yesterday, the state announced changes to their proposal for managed lanes on I-495 and I-270. These changes are important and positive, and I want to thank Governor Hogan and the Maryland DOT for these changes. I remain concerned about other parts of the plan, which I explain in my [statement](#).

As always, thank you for your understanding and support.
