Excerpts of A Message from County Executive Marc Elrich

May 27, 2021

Dear Friends,

All COVID-19 capacity restrictions and many face covering requirements were lifted Friday, May 28. This is happening because a majority of our residents are fully vaccinated, which is great news. You can see more about vaccination rates on the County's [COVID-19 information page](#) and on the [CDC information page](#).

We will now follow Maryland State health regulations regarding face coverings. Face coverings must continue to be worn on public transportation and inside schools, health care settings, youth camps and childcare facilities. More information is available [here](#).

I want to remind everyone that businesses, other establishments and workplaces can set their own guidelines—they can still choose to require face coverings. Please respect these decisions. In fact, the County is continuing to require face coverings inside all County-owned and operated buildings.

Additionally, the State health department is encouraging all individuals who are older than 2 and who are not fully vaccinated to wear face coverings in all public indoor settings and outdoors where physically distancing is not available.

We continue our efforts to vaccinate and reach the “hard-to-reach” communities. We still have thousands of our residents who are not vaccinated, and we remain committed to finding them and encouraging them to be vaccinated.

I have so much appreciation for our public health and logistic teams, led by our Public Health Officer, Dr. Travis Gayles, and our Director of the Office of Emergency Management, Dr. Earl Stoddard, and by so many County employees who have worked incredibly long hours to manage the impacts of this pandemic.

We also appreciate our nonprofit partners, health care workers, essential employees, volunteers and many more. Together, we have made our County a place that prioritized public health and safety and worked hard to protect our most vulnerable. And of course, the cooperation and support from you—our residents—has been central and essential to all these efforts.

Memorial Day weekend

This Memorial Day is the first holiday since the vast increase in COVID-19 vaccinations.

I hope that everyone has a safe weekend and uses common sense as they safely enjoy weekend activities.

As it is Memorial Day Weekend, I encourage everyone to also take a moment to appreciate the millions of men and women who have sacrificed their lives for this country. Let's remember and pay tribute to all of them this Memorial Day.

With appreciation,
